**Letter of Recommendation – Irena (Tomovic) Ivanovic**

While managing a large scale project in Montenegro It was my privilege to work with Irena Tomovic.

I originally met Irena as a young architect, working for a local Montenegro Architect firm. Together we worked on the Podgorica Mall in Montenegro. It soon became evident that she was a very talented, professional and responsible architect. She showed great initiative with the project and had wonderful people skills with clients and consultants. The project was complicated and Irena handled her part with care and diligence. In fact the project is operating and doing well today. I can also say that as a person I find her to be most pleasant and kind.

I can sincerely recommend Irena for any future project as I think highly of her both as a professional architect and as a lovely colleague.

Respectfully,

Issy Kagan Partner, Architect  
MYS Architects
